Trucker Guardian™

What Is It?

Save time and money with our Trucker Guardian™! Trucker Guardian™ is a wireless fleet management & tracking system that will make your life easy and increase your savings.

Trucker Guardian™ allows you to not only track your trucks, but also communicate with them and manage them online!

Manage, track, and communicate with your trucks and truck drivers easily through our online interface.

Installation of the Trucker Guardian™ unit is simple and fast.

Communication

Truck Tracker

Log on to your secure online account and track your trucks! Retrieve their coordinates and view them on a map. Make sure they are where they should be. Find out where they are if they are lost and direct them.

Trucker Communicator™ - Driver Communication

Communicate with your drivers using our Trucker Communicator™! Drivers can send quick messages using our message templates. Our easy online interface allows you or a manager to send a quick message to any truck driver!

Online Management

Track

Track your trucks online! Log on to view where your trucks are. View where your trucks are whenever you want to or set up hourly/daily status/coordinate requests for a truck or your entire fleet!

Manage

Add, remove, edit, and manage a truck, fleet, driver, or manager! View or add maintenance dates for each of your trucks! Add and manage your loads and saved locations. Assign, unassign, or re-assign a truck to a Trucker Guardian™ unit.

Communicate

Send messages to your truck drivers and view messages you have received or sent to them! Keep track of the messages you send and receive.

More!

Edit your account information, company information, or add or remove a new manager. Give them access to view a certain fleet or truck online! Set up

how regularly you want reports sent to you.

Anytime, Anywhere

Because of our online management system, you can track your trucks anytime, and anywhere at your convenience.

As the Trucker Guardian™ is a wireless system that uses the Inmarsat D+ Satellite Network, allowing our product to meet your needs globally. You will be able to track your trucks way out of the range of regular cellular networks.
